SUMMARY

Seasoned front-end developer with 10 years of hands-on experience crafting responsive, mobile-first web applications. Adept at translating design mockups into pixel-perfect UIs, optimizing performance, and collaborating across UX, backend, and QA teams to deliver high-quality features on time.

TECHNICAL SKILLS

- Languages: JavaScript, TypeScript, HTML5, CSS3, Sass, LESS, JSON
 - Frameworks & Libraries: Angular (2+ to 16), React, Vue3, jQuery, Redux, Material UI, Angular Material, Bootstrap, TailwindCSS, PrimeNG, Laravel
 - Tools & Platforms: GraphQL, REST API, Node.js, Git, Jira, BrowserStack
 - Other: Responsive Design, Cross-browser Compatibility, Performance Optimization, Code Review & Mentorship
-

PROFESSIONAL EXPERIENCE

Senior Frontend Developer

OCTA — Dubai, United Arab Emirates

03/2024 – 10/2024

- Introduced Vue 3 alongside Laravel 10 to replace legacy jQuery, modernizing the codebase and boosting maintainability
- Delivered team workshops on Vue 3 best practices, elevating proficiency and speeding up feature rollout
- Executed complex database migrations and optimized CRUD operations, enhancing backend performance and ensuring data integrity
- Built a scalable SCSS style guide, standardizing UI components and eliminating design inconsistencies
- Enhanced web performance via cross-browser testing, image optimization, and removal of dead code—achieving noticeably faster load times
- Led code reviews for a 5-member team, enforcing best practices and driving a 20% reduction in post-release defects

Full-time parenting

Apr 2023 - Feb 2024 · 11 mos

Dubai, United Arab Emirates

Senior Frontend Developer

Yomly (Previously EmiratesHR) — Dubai, UAE

12/2022 – 03/2023

- Spearheaded delivery of critical add-on features within a tight-knit 3-person team, consistently hitting aggressive deadlines
- Engineered Angular frontend modules with seamless GraphQL and Node.js service integration
- Partnered with backend engineer to architect efficient data flows and streamline API performance
- Served as the frontend authority, enforcing modular design, clean code structure, and scalable best practices

- Engineered Angular Reactive Forms with dynamic validation and conditional controls to streamline complex data-entry workflows
- Implemented timesheet analytics by aggregating work hours across multiple intervals (daily, weekly, custom) to generate actionable productivity insights

Front End Developer

Zendy (Knowledge E) — Dubai, UAE

01/2021 – 07/2022

- Developed the customer UI in React.js with Redux for state, integrating REST APIs
- Partnered with designers, QA engineers and backend developers to drive feature delivery
- Liaised directly with marketing and product management to align on roadmap and requirements
- Optimized login flows for speed and ensured pixel-perfect cross-browser compatibility
- Built fully responsive layouts for seamless use on any device
- Executed a complete redesign of key application screens based on updated UI/UX mockups, enhancing visual consistency and user engagement
- Ran bug fixes and new-feature tests using BrowserStack across real browsers and OSes
- Upgraded the admin cockpit with Material UI, adding new functionality and a modernized design.

Senior Frontend Developer

ePROMIS Solutions — Dubai, UAE

08/2019 – 01/2021

- Architected the SASS foundation by customizing the Fuse Angular 7 Material theme

- Modularized styles into partial SASS files for distinct layouts and UI components
- Developed a comprehensive SCSS style guide covering 500+ form elements, ensuring consistent look and feel
- Built fully responsive dashboards and reporting interfaces with dynamic chart-type toggling
- Developed custom Angular 7 components and services to meet evolving project needs
- Provided hands-on support to others developers by troubleshooting
- Collaborated with QA and project managers to clarify requirements and acceptance criteria
- Led internal technical feasibility reviews to roadmap complex feature implementation
- Optimized site performance and resolved cross-browser compatibility challenges
- Implemented scalable Angular modules aligned with project specifications
-

Senior Frontend Developer

Wishfin.com — Noida, India

08/2016 – 04/2019

- Architected front-end solutions using Angular 6+, jQuery, JavaScript, HTML5, CSS3, SASS, and custom WordPress themes—applying industry best practices
- Enforced code quality through peer reviews and collaborated on timeline estimates for new features
- Planned, tracked, and managed agile projects in Jira (and Redmine), ensuring on-time delivery
- Conducted cross-browser and device testing on UAT, pre-prod, and production environments
- Mentored junior developers and delivered hands-on training to new team members

- Aligned requirements by collaborating with business stakeholders, UX/UI designers, and backend engineers
- Built a foundational SASS framework with base variables and mixins for the main site and blog
- Designed and implemented dynamic layouts for both logged-in and anonymous user experiences

Technical Skills: HTML, CSS/SASS, JavaScript, Angular 6+, jQuery, WordPress Theming, Agile (Jira/Redmine), Responsive Design, Cross-Browser Testing, Code Reviews, UX Collaboration, Figma, Semantic HTML, Clean Code Practices, Software Design Patterns, SPA Development, Data Validation

Interactive Developer

Sapient — Gurgaon, India

03/2016 – 06/2016

- Converted PSD designs into responsive, pixel-perfect webpages using HTML5, CSS3, and jQuery
- Collaborated with UI designers and backend developers to align on functionality and integration
- Coordinated daily tasks and clarified new requirements with the onshore team to keep projects on track
- Led internal technical reviews to assess feasibility and optimize implementation strategies
- Provided maintenance support—triaging bugs and rolling out new feature updates
- Ensured consistent cross-browser compatibility across major browsers

Skills: HTML5, CSS3, jQuery, Responsive Web Design, Cross-Browser Testing, Semantic HTML, Front-End Development, Problem Solving.

Front End Developer

TheSqua.re Serviced Apartments

02/2015 – 02/2016

- Transformed PSD mockups into responsive webpages using HTML5, CSS3, Bootstrap, and jQuery to deliver intuitive UIs
- Partnered with SEO specialists and content writers to optimize page structure and on-page copy
- Worked closely with backend developers and UI/UX designers to translate requirements into functional interfaces
- Built and maintained responsive landing pages for affiliate websites
- Created and tested mailers for clients, ensuring compatibility across major email clients

Skills: HTML5, CSS/SASS Validation, Bootstrap, jQuery, Django, Python, Front-End Development

Software Developer / Trainer

CPD Technologies — Delhi, India

03/2012 – 01/2015

Software Developer

- Engineered web applications with ASP.NET and C#, leveraging HTML5 and JavaScript for dynamic, responsive UIs
- Converted PSD designs into clean, production-ready HTML/CSS templates
- Built custom JavaScript/jQuery modules to meet unique project requirements
- Mentored developers and interns—troubleshoot code issues and accelerated onboard ramp-up

Software Trainer

- Delivered hands-on ASP.NET and C# training to professionals and students
- Guided college-level web projects using ASP.NET, C#, HTML5, and jQuery

- Designed master-page themes and layouts to standardize UI across student projects
- Tutored multiple IGNOU MCA and BCA cohorts, adapting teaching to diverse skill levels

Skills: HTML5, Entity Framework Core, ASP.NET, C#, JavaScript, jQuery
